**Subject:** MA Obligations, Work, and Cost Share

CDR Hurley,

I just spoke with Ari Delarous of FEMA concerning the confusion in MA end dates, obligating Funds, and extensions.

Apparently, since cost share will be changing (from 100% to 90% or 75%), the rules are now different from what has happened in the past. This won't affect CG, but will affect the State.

The no-cost MA will end on the 21st and a new (cost share) MA (not an extension) will be issued and be effective starting on the 22nd. All unspent funds will be de-obligated and added to the new cost-share MA. This is different from a normal extension or end of a mission assignment and is different from what's been done in the past. For the Coast Guard, this doesn't change anything, as we will be reimbursed for our costs -period.

What it does change is the State's cost share amount that they will pay to FEMA. The State will pay FEMA the 10% (or 25%) for all costs after the 21st.

v/r,

Jon
